

Energyze CS

Carbon Solutions

CARBON STARTER:

A carbon based catalyst used to enhance soil biology, promote faster germination and boost nutrient uptake.

BROWN SUGAR:

A carbohydrate that feeds to deeper roots and provides beneficial microbes for stronger roots and healthier plants. Gives the microbes a food source.

HUMATE WITH FULVIC ACID:

6% to 7% Humic Acid/with 10% Fulvic Acid. Benefits include an improved efficiency of nutrient uptake and reduces soil compaction. Creates a sponge-like effect in the soil to keep the nutrients in a plant-available form instead of getting tied up. Builds organic matter.

Crop and animal residue solutions. When you have crop residue from a previous growing crop or have applied animal manure to your field and would like the natural process of composting to be enhanced, Energyze Carbon Solutions is an excellent product to use.

APPLICATION RATE

- In furrow** Apply 12.8 to 24 fluid ounces per acre, pre-mix with 3 to 10 gal of water.
- Side Dress** Apply 12.8 to 24 fluid ounces per acre, pre-mix with 5 to 10 gal of water.
